The program will take place continuously from 3 until 5 p. m. Admission is free to the public and door prizes will be awarded at 7 p. m.

Active exhibits include: Only Love Beets Milk; Eat to Live; Hominy Grits; Snacks and You; What's Your Weight Control IQ?; Pizza Parlor; 4 More Beautiful Baby Begins With You; Have Any Questions About Your Special Diet; Fun With Foods. A series of films will also be shown continuously in an adjacent room.

J. V. GRID CONTEST CANCELLED

The previously scheduled Telstar J. V. football game with Lisbon High School on Monday, Oct. 25, has had to be cancelled because of a school holiday. The next J. V. contest will be Nov. 1 at Windham.

AROUND THE HOUSE

Save push-button-type bottles (NOT aerosol—the kind window cleaners and hand lotions come in) and use for furniture polish, spot removers . . . and water to dampen ironing.

Scissors points won't damage your hands or your sewing bag if a cork is pushed onto the points. Prevents breakage if the scissors are dropped, too.

A fan on the closet floor will push out the stale air and keep clothes smelling fresh.

Sold shirt cuffs and collars needn't be scrubbed! Wet them, dip in detergent beads so they look "sandy," then launder as usual in washer.

Before you apply an iron-on patch, put a piece of aluminum foil under the worn area of the garment. It will concentrate the heat, and save your ironing-board cover.

COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

TELSTAR TAKES MVC LEAD —DOWN JAY TIGERS, 12-8

Construction is planned for 2500 feet on the Locke Mills to East Bethel road. This will be State Aid reconstruction to eliminate the bad curves in that section. Work is to commence the first of next week. Oscar Andis will be in charge of the project. There is three years money available for a total of \$36,000.00.

A meeting for municipal officers in the area will be held Oct. 27 at Telstar High School. This will be to acquaint them with some of the solutions being used to dispose of rubbish. The last legislature passed a law which prohibits, after two years, the burning of open dumps.

It would appear that most dumps will have to be closed and other methods of disposal found.

By the end of the week the winter stockpile of salted sand should be complete. We plan to have 2500 to 2700 yards of sand with 90 tons of salt added.

There has been no final decision on hiring additional police officers. It will be discussed at a selectmen's meeting Tuesday night. Elvyn Dickey

SENIOR CITIZENS MEET

On Tuesday, Oct. 12 the Senior Citizens met in Garland Chapel for their business meeting which was followed by games. Hostesses were Hazel Trinward and Maid Hunt.

Owing to the resignation of Elizabeth Glines as president, and Florence Thurston as vice-president, the group elected Joan Coolidge as president and Hazel Trinward as vice president. At 1 o'clock the group adjourned to have luncheon at the Bethel Spa dining room. The owner, John Grover, suggested that the Senior Citizens go there, and 34 members and guests enjoyed an excellent luncheon at an agreeable price. Watch for information of the next meeting in the Citizen of Nov. 4.

NO SCHOOL MONDAY

All schools in S. A. D. 44 will be in recess on Monday, Oct. 25, in observance of Veterans Day.

WEDDING RECEPTION FOR MR. AND MRS. DAY

CHRISTMAS MAIL DEADLINES FOR ARMED FORCES OVERSEAS

Dana Melville's two touchdowns proved to be enough to carry Telstar to the top of the Mountain Valley Conference, when league leader Lisbon High lost to Leavitt in last Saturday's gridiron action.

Following the opening kick-off Telstar drove the ball to the Jay 43 yard line. Ron Deegan then threw a 52-yard scoring strike to Melville to put the Rebels in front 6-0.

Melville helped the cause once again when he added the extra point by kicking the ball dead center through the uprights.

Jay came back in the second stanza when halfback Mark Letourneau ran in from eight yards out to score. Jay's Greg Trask rushed the conversion to put his team in front 8-7.

Through the entire third period and most of the fourth both teams moved the ball but failed to score.

The Rebel defense stopped the Tigers several times inside the Telstar 20 yard line.

With less than three minutes to play, with Telstar's ball resting on the Jay 32, Ron Deegan drew blood for the decisive score when he hit Melville in the end zone with a perfect pass.

Along with Deegan and Melville, Rex Cummings, Al Yorks and Frank Howard were standouts for the winners.

ENVIRONMENTALIST TO SPEAK TO RETIRED TEACHERS AT SATURDAY MEETING

On Saturday, Oct. 23, Oxford County Retired Teachers will meet at the South Paris Congregational Church for a social hour at 10:30 a.m. which will precede the business meeting. Luncheon will be served at 12:30. The topic for the program will be "Environmental Crisis."

Mrs. Clifford, an ardent environmentalist who is chairman of Aware in Oxford County, was born in Lincoln, Maine, attended Mattanawock Academy and the University of Maine, where she majored in science receiving a B. S. in Education. For a few years she taught in rural New York but both she and her husband, who is head of the Guidance Department at Oxford Hills High School, preferred to return to their native state where with their three young daughters reside in South Paris.

Mrs. Clifford is currently involved with the adult education courses at Oxford Hills High School.

Mr. and Mrs. James Browne and family have moved to the former Ida Packard home for the winter.

TO ALL INTERESTED PERSONS—

Come to Bath and Diana Douglass on Monday, Oct. 23, from 4 to 6 p. m. to meet "The New Town Folks." If weather permits, we'll gather in the barn, so wear warm clothing.

SOLID WASTE MANAGEMENT TO BE TOPIC OF MEETINGS IN BETHEL AND NORWAY

Solid waste management will be the topic of discussion at a series of two meetings to be held in Oxford

County, Wed., Oct. 27, at 7:30 p. m. in the Telstar High School, Bethel, and on Wed., Nov. 3, in the Oxford Hills High School, Norway. These meetings on solid waste management are being jointly sponsored by the Oxford County Sponsors and Steering Committee of the Threshold in Maine Resource Conservation and Development Project and the Oxford County Cooperative Extension Service.

The program should be of particular interest to all municipal officials, planning board, conservation commission and regional planning commission members because of recent legislation passed that will necessitate the elimination of all open burning dumps and the relocation of all dumps closer than 300 feet of classified waters.

The first meeting on Oct. 27 will deal with state and federal legislation. Dennis Huebler, Regional Representative, Office of Solid Waste Programs, Environmental Protection Agency and Wally Hinckley, Department of Sanitary Engineering, Maine Department of Health and Welfare will be present. Mr. Hinckley on Oct. 27, will also discuss the techniques associated with sanitary landfills.

The meeting on Nov. 3 in Norway will further explore other techniques of solid waste management such as shredding and high temperature incineration. Technical representatives of major companies manufacturing this type of equipment will be present to discuss their various techniques and equipment.

In addition William Rogers, Executive Director of the Greater Portland Council of Governments, will be present to discuss the regional or multi-community approach to solid waste management. Mr. Rogers has successfully, in Pennsylvania and now in the Greater Portland area, organized communities to work on this problem together.

Both meetings will be under the chairmanship of Diana Douglass, Jr., Chairman of the Oxford County Steering Committee, and the meetings will be free and open to the general public.

ity of all employees, and a rollback in salaries of all salaried employees by 5%.

Inquiry was made about the status of the emergency generator at Telstar and the Continuous Progress Program at Andover. Supt. Robert Gerard said that both items would be on the agenda when research and data were completed.

Bernard Gatchell, supervisor of buildings, grounds and transportation, reported that the District was awarded one bus driver under the Emergency Employment Act. In view of the fact that the job approval

DISTRICT 44 DIRECTORS HOLD MEETING AT TELSTAR

The S. A. D. 44 board of directors met in regular session at Telstar Regional High School on Monday evening.

In the citizens portion of the meeting, Avery Angevine of Bethel expressed dissatisfaction with the roofing job at Crescent Park School, stating that in his opinion it was amateurish and poorly done. With regard to the re-wiring project at the Woodstock Elementary School, Mr. Angevine commented that although it would satisfy the State Code, it was his opinion that it was not the type of work one would expect for a school building.

The board approved the nomination of Mrs. Patricia Doorn, Bethel, to serve as District bookkeeper. The resignation of Mrs. Gertrude Hutchins as secretary in the superintendent's office was accepted with regret. To fill the position, the board approved the nomination of Miss Sheila Hebert, formerly of Mexico, who currently is employed by the CIA in Washington, D. C.

A proposed District policy for handling disciplinary matters was returned to the Policy Committee for unspecified refinement. With regard to disciplinary matters the Board approved the following resolution:

Before final Board action, all District administrators and employees directly involved shall have the opportunity to make their views known to the Board in executive session.

GREENWOOD CITY

Mrs. Colista Morgan, Corres.
"My thoughts today are like leaves

In the wind,
Blown, dancing down, from a tree;
I am part of the autumn day
And it is a part of me.
I am a portion of sun and grass,
Of harvest, of hill, and oh,
I cannot stay where the feet are
mill
I simply must rise and go!"

Louise W. Sutton

The beauty of shape in leaves is endless as well as the color. The more leaf shapes you can recognize the more living friends you have. Each leaf has a birth, childhood, prime of life, and death as do people. Each year the woods hang out their opened foliage, tiny banners flying in the wind, the triumphant colors of life.

October is the in-between time with days just warm enough to be invigorating and nights cool and crisp. The blue air sparkles like diamonds and I have viewed it from highthis week.

Anyone who lives nearby has heard of or visited Overset Pond, or the Bluff. Threes companions and I did both on Monday. Beneath our feet the earth was a blazing carpet of orange, russet, crimson, and gold. From the summit, the little pond showed its heart, for the sky facing us was a perfect valentine. This is only one piece of the mirror that has been broken into a thousand fragments and widely scattered all over Maine where each reflects the full blaze of the sun. What a reflection at this time!

There was a unique harmony in the blend of color, texture, sound, and scent.

Occasionally a chipmunk busy reaping his share of harvest for the winter ahead scampered across our path or talked from a tree.

We listened to the wind as it seemed to say "Hush" and again, "Hush." It was like a vast calm breathing.

The aspens because of the flattened leaflets set at right angles to the blade itself, even in a slight draft, patter like rain, rustle like silk skirts, or whisper like boys in the back row at school.

I had a planetary feeling as I gazed at the pond, mountains, and fields in the distance. From one place I could see my home pond and parts of Norway Lake.

There was quiet and solitude, perfect complements to the scene except for a few minutes when a plane flew in low and we thought it planned to land on the pond but didn't. We lingered to capture the view, to soak up the silence and to feel the fresh wind.

I thought of how the glacier had carved the valley and wondered what secret the Bluff held for it had kept its massive prominence having resisted despite a vast amount

and intensity of weathering to which it had been subjected.

The pines on our way down talked in deeper voices as the wind played about.

Stealing to us was the wonderful underground smell of damp earth and mushrooms, an odor sad with the dying, yet delicious, too. The leaves of last year are being turned into mold by the hard-working soil bacteria. They help to make a rich loam for the seed crop of next year.

We saw many different kinds of fungi. They have strange and lovely colors. There are scarlet and orange capped toadstools, royal violet shaded down to the most delicate tints of pink, to pale lavender, and to the mother-of-pearl tones of the human flesh, and lastly to the waxy perfection of a kind called the destroying angel. We never see the green pigment of chlorophyll found in plants that make their own food. Fungi are interbraided with lives of other things.

The splendor of this autumn day was repeated by the same four the next day, this time on the timbered trails through the lush beauty of hills far from home. It was a different setting but not more beautiful than Overset.

Two days I hiked alone except for my camera and binoculars, my close companions.

I just can't tell you how long it takes to get ones fill but I have lingered around the ponds, on the mountains, in the woods, frozen by beauty all this week. Added to all this were the geese etched in a V shaped trail across the sapphire sky, partridge winging its way, a hawk soaring against a cloud and a pheasant by the road side.

"My mind caught the beauty
I knew from the start;
I had found autumn . . .
It captured my heart."

Garnett A. Schultz

Christian Science
True life and goodness have no
end according to the Bible Lesson
Lesson on "Probation After Death"
at Christian Science Churches Sun-
day.

One of the passages to be read
from "Psalms" affirms: "They who
above me the path of life: in the pro-
cess is fullness of joy: at my right
hand there are pleasures for ever-
more."

A brief of what this can mean in
terms of today's life style is given
in this citation from "Science and
Health with Key to the Scriptures"
by Mary Baker Eddy. "Life and
goodness are synonymous. Let us then

shape our views of existence into
loveliness, freshness, and continuity,
rather than age and blight."

TELSTAR R. H. S. NEWS

COUNCIL COMMENTS

Last Friday an all school rally was held in the gym. The purpose was two-fold; it was meant to fire people up for the Jay game, but was meant more to show the students, by way of a skit, how some individuals behave during a game. Due to a slight misunderstanding among those involved plans became confused, so the skit did not go over as well as it might have. But I think many people did get the message.

Monday the 18th, Randy Littlefield and I went to Leavitt with Mr. Flynn. Randy and I met with other council members from various schools in the Mountain Valley Conference. Many ideas, problems, and possible solutions to our common problems were shared. A good time was enjoyed by all.

There is no earthly device that could measure and record the pure tension that is felt by most every member of Telstar, students and faculty alike. At the G. C. conference yesterday I talked to the representatives from Leavitt, and they wished us good luck. (I guess they think we need it.) But it won't take long to show 'em! Two hours will do the trick!!!

That's it for now. See you at the game Saturday -- Roberta Croteau

FUTURE TEACHERS ASSOCIATION

Under the supervision of James Fiske, a new club is being organized at Telstar: Future Teachers Association. During the week, different students will be student teaching throughout Telstar and also will be going to the Ethel Bisbee and Crescent Park Schools. This will enable the students who are considering teaching as a profession to be exposed to some of the things teaching involves and to get some idea of what teaching basically is about. Seated above are four of the members. Left to right, Jill Hutchins, assisting Mrs. Anderson in the second grade; Ellen Greenleaf, assisting Mrs. Baldi, also in the second grade; Gayle Packard who will stay at Telstar with Mrs. Dombrowski of the Home Economics Department; and Pam Benson who will assist Mrs. Gould in Grade one.

Mrs. Harold Bodwell, Pine Street, Andover, announces the marriage of her daughter, Ruth to Russell Hilton, son of Mr. and Mrs. Lindon Hilton, Kittery. Miss Bodwell's father was the late Harold Bodwell.

Rev. Clifton Wood of the St. Marks Methodist Church at Kittery performed the ceremony on Oct. 16.

The attendants were Mr. and Mrs. Larry Cutting, Kittery.

The bride graduated from Andover High School in 1967 and from U. of M. Presque Isle, in 1971.

The groom attended Trap Academy and served two years in the United States Army. Part of the time he spent in Germany. He is employed on the construction at the Portsmouth-Kittery bridge.

The newlyweds will reside at 30 Clark Road, Elliot.

**GIRL SCOUTS ENJOY BIKE HIKE TO BETHEL RESERVOIR**

Thirty-two Junior Girl Scouts and six leaders and adults left from the Masonic Hall in Bethel on a bike hike on Oct. 7. The purpose of the hike was to work on the cyclist and Gypsy badges.

In preparation for this hike, Mrs. Stephen Chandler spoke to us at a previous meeting about safety rules, explained how to read the map and plan the route, discussed proper clothing to wear and what type of food to bring.

On the morning of the hike, Bob Stearns of the Bethel Police, checked the bikes for safety and escorted us across Route 2 to the N.W. Bethel Road. We turned into the Chapman Brook Road and picnicked in a field. We then hiked up to the Bethel reservoir, explored, played games, sang songs and had

a "Scout's Own." Bruce Bailey arrived and showed us how to clean the reservoir. Following the bike back down, Mr. Bailey also explained to us how and when the chlorine and fluoride are added to the Bethel water supply to make sure we have pure water to drink.

As a service to the community we would like to share the bicycle safety rules we learned.

1. Have a reflector on back of bicycle and a white head light on front if riding at night.
2. Know your hand signals.
3. Have a signal horn or bell.
4. Keep to the right. Ride in single file. Ride in groups of six to eight with at least 100 feet between groups so cars can pass. Ride in a straight line.
5. Check your bike to make sure it fits your size, that the brakes

work, tires are at right pressure, and handle bar grips don't slip.

6. Obey all traffic rules and signs.

7. Give pedestrians right of way, do not ride on sidewalks.

8. Carry packages in a basket or fastened to the bicycle.

9. Do not carry other riders on your bicycle.

We also learned about a bicycle penalty in Maine which is: Any person 17 or under who is in violation of safety rules can have his bicycle impounded for a period of not to exceed five days, first offense, ten days for second offense and not to exceed 30 days for a subsequent offense. This may be enforced by Town Police or by Selectmen in the absence of a policeman.

Good weather contributed to a fine time by all who took part.

"Safe Bike Riders To-day
Good Drivers tomorrow."

WINDHAM - CUMMINGS
ENGAGEMENT

T/Sgt. and Mrs. Murry W. Cummings of Citrus Heights, Calif., formerly of Bethel, announce the engagement of their daughter, Joni 21, to Sgt. Roland W. Windham, son of Mrs. Margaret Windham and the late Malcolm Windham of Texarkana, Tex.

Mrs. Cummings attended Bethel and Topsham schools and Brunswick High School. She will graduate from San Juan High School in January.

Sgt. Windham is a 1969 graduate of Texarkana High School and is stationed at George A. F. B. in Victoria, Calif.

An April wedding is planned.

DISTRICT DIRECTORS MEET

continued from Page One
ed was far down the list of priorities in the District's request, the directors voted to disregard the allocation.

Brian Flynn, Telstar principal, commented on the possibility of varsity basketball practice being held in the evenings, making it difficult for Andover players to participate. Without formal action, it was the evident consensus that it would be the students' responsibility to provide transportation.

The Board disapproved a motion that would have required the verbatim publication in the local paper of the minutes of the meetings as prepared by the secretary (superintendent).

Board members not present at the meeting were: M. Parker Allen, Milton Mills, Woodstock; Leon Akers, Andover; Paul Wight, Newry.

The next regular session of the board will be held at the Woodstock Elementary School on Monday evening, Nov. 1.

Mr. and Mrs. Perley Tripp have gone to Lake Worth, Fla., for the winter.

Word has recently been received that Edward Tibbets, formerly of Bethel has been registered with the State of California as a Professional Engineer.

Sgt. Windham is a 1969 graduate of Texarkana High School and is stationed at George A. F. B. in Victoria, Calif.

An April wedding is planned.

A TRIBUTE TO FRED GROVER

In the 40's Bethel boasted a new and modern movie house although in those far-gone days cinema had neither X nor R ratings. The manager of this theater was Fred Grover who was exceptionally popular for his courtesy, his friendliness and genial manner. His quick wit at repartee was always refreshing and amusing.

After the closing of the theater, Fred was employed as a clerk at the Bethel Post Office where he served the public in many helpful and accommodating ways.

In his home life Fred was a devoted son and brother and his family in return gave him the sympathetic support which helped to make his long and devastating illness endurable.

A veteran of World War II, he was often a patient at Togus and his treatment there was courageously accepted.

To the members of his family goes the memory of a townspeople who will long cherish the memory of a loyal friend and fine citizen. G.S.

MRS. FANNIE P. CUMMINGS

Mrs. Fannie P. Cummings of Bryant Pond, died early Tuesday morning, Oct. 19, 1971, at the Stephens Memorial Hospital, Norway, where she had been a patient since Oct. 8.

Born April 13, 1876, in the Pinhook section of Woodstock, she was the daughter of Dexter and Effie Halcott Peverley. She attended local school and was the widow of Frank Cummings, who died May 24, 1943. Mrs. Cummings was a member of Jefferson Chapter, O.E.S., of Bryant Pond, and was the oldest citizen in the town of Woodstock.

Survivors include a daughter, Mrs. Esther Farmar of Bryant Pond, with whom she made her home; a brother, Edward Peverley of Mechanic Falls; four grandchildren; 23 great-grandchildren and several great-great-grandchildren.

Funeral services will be held Friday afternoon, Oct. 22, at 1 o'clock from the Bryant Pond Universalist Church with Rev. Donald Hinckley officiating. Interment will be at Lakeside Cemetery, Bryant Pond.

STATE INCOME TAX
Good as Any—Farther than

Maine voters will cast their next Tuesday in a special election.

By far the most important item on the ballot is the one-time repeal of the two-year income tax.

Reportedly a large portion of revenue from this tax is slated as State subsidy for school education. This issue should warrant attention.

Over the past dozen years some four score school districts have been formed, as citizens "sweet talked" by promises of equitable distribution of state funds. In financing their programs over the years would appear to have the effect of the rich getting "richer," the poor getting poorer".

A tax based on an income would seem to be fairer than the addition to the sales tax, or a tax on the property tax. Another increase to the sales tax could have the effect of eliminating the low-income taxpayer.

If the income tax is passed where were the members of the Legislature who now oppose it? Are they not admitting they are without the acumen to lead their constituents out of the wilderness?

In issues such as this half a dozen are bound in both the camp of "no" and "yes," and the voter must make his decision from his own conscience. The temptation is to the governor for his high office but it is the Legislature that has the laws. We find it difficult to believe that a majority of legislators are spendthrifts. If they are, then reason elections are even numbered years.

We believe that a revision law by the Legislature is long due, and that there is waste and inefficiency in government.

AROUND THE HOUSE

Painting the basement floor less work if you use a roller instead of a mop handle. No splashing.

Soften small slivers of different soaps in a double boiler and pour into multicolored balls to make lovely guest soaps for displaying in your bathroom.

Close zippers, snaps, buttons and hooks on all clothes before machine-wash them. The fast will last longer, and won't other clothes in the laundry.

A knot in a shoelace—even a one-can be untied easily with large safety pins. Just catch side of the knot with a pin, pull firmly apart.

A white fingernail pencil is for touching up discolored growths on tiles. In the bathroom just moisten it and mark.
